

About the College

College first appeared in the school year 2005/2006, as one of the branches of 'Milutin Milankovic' educational system; it was the first private educational institution which enabled higher education of students within the area of health care. College of Higher Education was established on June, 14, 2005 by the management board of the Founder, Interspeed Trade Company located in Belgrade, which deals with internal and foreign trade. 'Milutin Milankovic' High Medical College of Vocational Studies was founded in 2007, representing the first educational institution in Serbia which provides high degree education in the domain of health care. The student profiles with official accreditation are

- **HIGH DEGREE VOCATIONAL NURSE – TECHNICIAN, and**
- **HIGH DEGREE VOCATIONAL PHYSIOTHERAPIST.**

Duration of schooling in 'Milutin Milankovic' High Medical College of Vocational Studies extends to three years or six semesters. Students acquire knowledge and skills through lectures, exercises, practice, seminars, and consultations, organized by experienced and highly professional staff. Our students become experts with high degree education in the field of health care and they can apply their knowledge and skills in various health care institutions, sports centres, spa and wellness centres, in our country or abroad. Cotemporary syllabus and education system follow the European and world trends. The titles acquired upon graduation include the following:

- **High Degree Vocational Nurse – Technician, and**
- **High Degree Vocational Physiotherapist.**

SPECIALISED VOCATIONAL STUDIES IN URGENT MEDICINE AND HEALTH CARE

Study program for specialized high degree vocational nurses in the field of Urgent Medicine and Care is well defined in its purpose and role within the Public Health Care. It follows the growing needs for the health care of the most difficult cases and categories of patients. Educated in this way, nurses are expected to acquire skills of organizing and controlling processes of urgent care in hospitals, clinics, specialized geriatric centres, social protection institutions, etc. Duration of specialized vocational studies involves two terms and upon completing the studies, candidates acquire the title of **VOCATIONAL NURSE-TECHNICIAN - SPECIALIST IN URGENT HEALTH CARE.** As for Bologna Declaration, the studies bear 60 ESPB.

Over-qualification according to the Bologna Declaration program

The College enrolls all the students who want to obtain high degree vocational education on the appropriate level by acknowledging exams and providing opportunities for taking differential exams.

Simultaneous Study and Work

Everyday consultations and tutorials provide opportunities for successful study for employed people.

Continuous Education

Apart from regular syllabus, the College offers special teaching programs for self-improvement, which are organized in the form of seminars and tutorials.

The head office of 'Milutin Milankovic' High Medical College of Vocational Studies is located in Belgrade, as well as the College management, student service, modern study rooms and amphitheatres where the lectures are held. Student practice is performed in school bases which include the most eminent national health care institutions in Belgrade and Serbia.
